

A Mouth for a Meal

By Julia Lindsay
Illustrated by Meghan Shea

Animals have lots of different mouths.

Mouths are big and small, sharp and dull.

What does a mouth let an animal do?

CHOMP! It lets animals chomp on food! Yum!

Ants can pinch scraps.

Chimps grab bugs and plants to eat.

Rats and rabbits have small teeth to eat snacks.

A frog has a big mouth to gulp bugs.

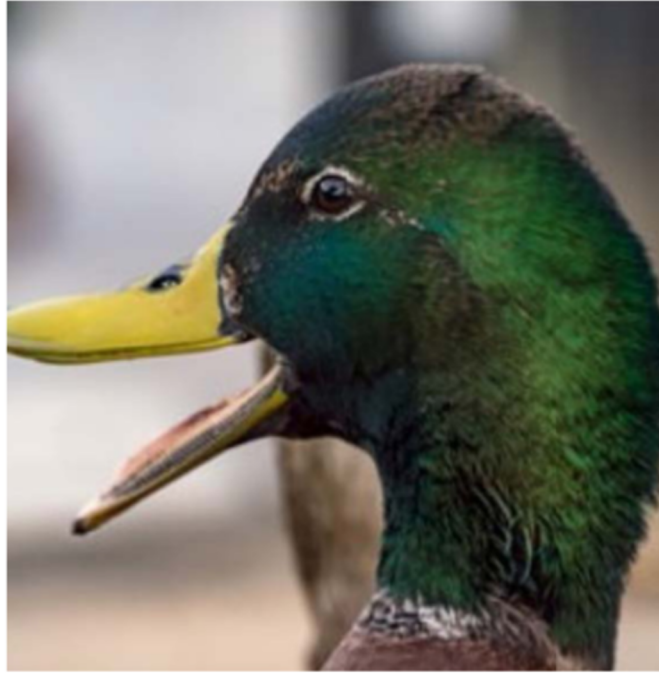

Cats and dogs have sharp fangs to crunch.

Pigs have big, dull teeth to munch on food.

A panda can grab a plant to chomp.

Ducks have long bills to catch fish.

Animals' mouths let them eat food! Yum!
