Topic Connection	Sea turtle survival and protection
Fo1 Weekly Question	How do people impact animals' survival?

By Julia Lindsay

Dr. Kim likes sea turtles. She helps them survive.

Dr. Kim helps the sea turtles survive!

Dr. Kim picks bags up and asks her friends to put bags in the trash so the bags will not go into the sea.

It is very hard for them to survive.

Sea turtle moms put some eggs in the sand. The sea turtles crack out of their eggs in the sand.

In the sea, there are not some bags—there are lots and lots of bags. Sea turtles snack on the bags, but they do not like them.

They like to snack on jellyfish. But, jellyfish look like bags.

Then, they have to go on a very long run to the sea. Some do not get to the sea.

Dr. Kim helps get lots of them to the sea. Dr. Kim and her friends bring the sea turtles to the sea so they can jump in and swim.

It is also very hard for sea turtles in the sea.
