

# Ducks in Boston

By Julia Lindsay  
Illustrated by Meghan Shea

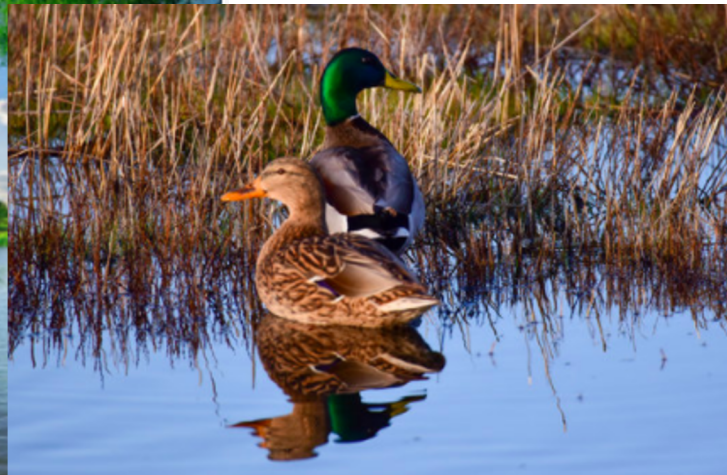

Boston is an urban habitat that has a lot of animals.

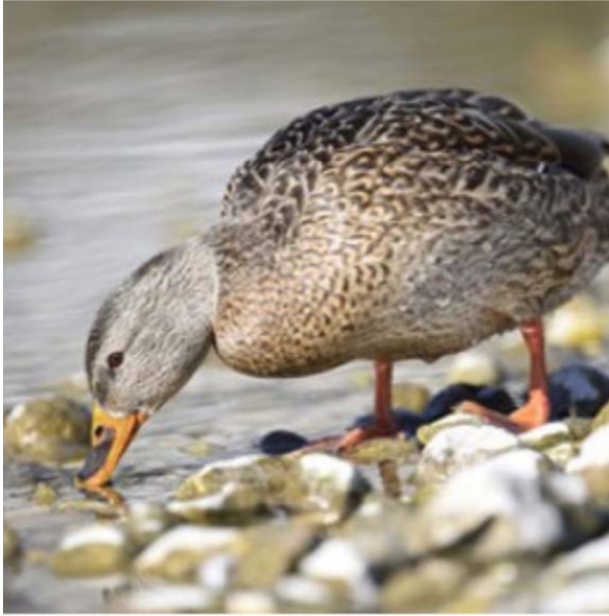

An animal in Boston is a duck. Ducks adapt so they can live in Boston.

All ducks swim in ponds.

Boston ducks can swim in big and small ponds.  
These ducks swim in a small pond in Boston.

All ducks eat small fish and grass.  
Boston ducks can eat fish and grass, too!

Boston ducks can also eat food from people.  
This duck eats food from a man in Boston.

All ducks make nests. They do not make dams.  
Boston ducks can make nests with sticks on land.

Ducks can adapt to live in Boston.

These are ducks in Boston, too!
