

# Rainforest Life

By Julia Lindsay  
Illustrated by Meghan Shea

This is a rainforest. What is a rainforest? It is a habitat that is hot, and it rains a lot.

Rainforests are full of animals.

Who is in a rainforest? Fish, bats, and sloths are in the rainforest.

Fish swim and frogs hop in the ponds.

Bats fly and eat bugs - big and small - in the rainforest.

Sloths hang from trees and grab bugs to eat in the rainforest.

Rainforests have lots of plants.

What plants are in a rainforest? Lots of trees are in the rainforest.

Lots of tall trees stand in the rainforest.  
Animals sit in the tall trees.

The rainforest is a hot habitat with lots of rain  
for plants and animals!
