

## Fool's Gold

# Visual Images for Suspects

On the following pages are picture cards for the suspects in the original mystery list. There are **10** suspect characters.

Using these suspect pictures is a fun option if you would like to add more visuals when setting this mystery up in your classroom or home school.

**Option 1:** Cut out as cards, place on a display board, remove the cards as characters are eliminated.

**Option 2:** Print like a worksheet and cross off suspects on the page. Tip: Laminate the pages, use washable markers, to reuse the pages again (this also helps if students make a mistake when crossing off suspects).
