

DIGRAPH

BUNDLE

COMPLETE

~Digraph~
Practice

Dear Educator,

Thank you for your purchase! This is a preview of a bundle for consonant digraph practice, compatible with OG instruction. This resource may be used in a 1:1 setting, small group or even whole class, depending on your needs.

NOTE: Please pay special attention to the Table of Contents. This is the order of instruction I recommend. It progresses from words and sounds, to sentences and a fully decodable story. Three games are included at the end to use at any point in your instruction. They make great review centers.

***This bundle purchase as well as all products in my store is for a single user, only. I offer a great discount on additional licenses if you are interested in sharing. Thank you for honoring my terms of use.**

Thank you so much for choosing my store for your classroom needs. I do appreciate your patronage. Please be sure to leave feedback. It helps me, future customers, and you'll earn credit towards new purchases!

Sincerely,
Emily Gibbons

Each set comes with sets of sound cards for tapping out sounds. You can also use them with plastic counters. Have students slide one plastic counter into each box as they say the sounds they hear in a word.
