55 Seasonal Stories

Thank you for your purchase! This is a set of seasonal 55 decodable readers. You will need to print, assemble and staple them into books prior to use. They follow a structured progression based on the [sequence](#) I use to create my O-G resources. Each book will feature a culmination of skills and concepts. Please refer to the table of contents to see which skills are addressed in each book.

These stories are written to use throughout the school year. They're fun seasonal activities that will reinforce decoding skills.

Since using pictures to guess or read an unknown word is NOT following the science of reading, but rather a compensatory habit, I took special care not to include pictures that readers could use to guess at words. Instead, I've included some photos and clip art mixed with empty boxes on some of the pages, so your students may briefly sketch or illustrate what they visualized as they read. This is a good way to check their comprehension!

You will find comprehension questions on the back page of each mini-book. I hope you enjoy using these just as much as I enjoyed writing them for your students and mine!

Happy Reading!

Emily Gibbons, M.Ed. C/AOG, CSLDP
